## Fernando Alonso-de-Florida R.

PARTNER

Mr. Alonso-de-Florida focuses his practice on financing, real estate and energy (O&G and power) transactions. He regularly advise local and multinational corporations, including financial institutions, investors, energy and real estate project developers, on cross-border and domestic transactions, as well as on regulatory, corporate, contract matters and reorganizations. He is a registered conciliator and receiver (síndico) at the Federal Institute of Experts on Business Reorganizations (Instituto Federal de Especialistas de Concursos Mercantiles or IFECOM).

He has significant experience in the real estate, agribusiness, mining and energy sectors, where he focuses on M&A, project finance and regulatory matters. Mr. Alonso-de-Florida has acted as counsel in a wide variety of representative transactions in several sectors and industries, including in the acquisition of regulated entities, real estate portfolios, energy, mining and consumer products. He was involved in the structuring and negotiation of the largest bilateral real estate financing ever in Mexico.

### EDUCATION

---

The London School of Economics and Political Science, LL.M. Banking & Finance Law (Chevening Scholar).

#### **1998**

Universidad Panamericana, Mexico City, Attorney at Law (Honors).

---

### PRACTICE AREAS

---

Banking and Finance; Real Estate; Mergers & Acquisitions; Reorganizations, Energy.

---

### EXPERIENCE

---

Mr. Alonso-de-Florida specializes in finance, project finance, export finance, M&A, real estate, reorganizations and energy (hydrocarbons, power and renewables). Mr. Alonso-de-Florida counts with vast expertise in international transactions. He regularly advises Mexican and international clients, including energy and real estate project developers, international and Mexican financial institutions and foreign investors on cross-border and domestic transactions.

He has broad experience in real estate transactions and he was involved in the structuring and negotiation of the largest bilateral real estate financing ever in Mexico. He is also experienced in transactions in the mining and energy sectors, where he focuses on M&A, project finance and regulatory matters.

---

## TRANSACTIONS

---

Advised a Mexican agribusiness group in a cross-border structured private placement with a group of US insurers for US\$107 million and an add-on to reach US\$132 million with a bank lender, as well as interest rate and FX hedges. The transaction involved the formation of a synthetic holding vehicle and the simultaneous prepayment of more than twenty existing loans with different lenders, the release of their collateral and the creation of a new security interest on the same assets.

Advised the syndicate of lenders including the US Ex-Im Bank, the Korea Ex-Im Bank, Export Development Canada and a group of commercial banks and other lenders in the approximately US\$759 million financing for the construction and development of a polymetallic mining project in the Baja Peninsula, involving, inter alia, the development of a power cogeneration facility at the site, as well as private and communal land (ejido) real estate, water, reinsurance and ports matters.

Advised GE in its ongoing Mexican real estate transactions developing a number of financing structures for the acquisition, sale and refinancing of more than US\$4 billion of commercial, industrial and hospitality real estate properties

Acted as lead counsel in the acquisition of a minority interest of one of the largest forestry, wood processing and commercial businesses in Latin America, having an impact in twelve international jurisdictions. The transaction involved several corporate restructurings in different jurisdictions, the negotiation of the joint venture and acquisition agreements, as well as coordinating the efforts of local counsels.

Advised the US Ex-Im Bank and Citibank, N.A. in connection with the negotiation of a cross-border loan in excess of US\$90 million granted to a manufacturer of commercial vehicles, guaranteed by the US Ex-Im Bank and secured by a floating pool of receivables deriving from commercial leases and financings granted by the borrower. The transaction involved a complex US Dollar-Peso currency and interest rate conversion structure.

Is currently advising a Mexican developer in the structuring, development and financing of two projects for the production of sugar cane-based advanced bioethanol and electric power in Mexico, involving private and communal land (ejido) real estate matters, fuel transportation and storage and a cogeneration facility. Each project is valued in the amount of approximately of US\$330 million and comprises the structuring of large tracts of agricultural land and the construction of industrial facilities and technified irrigation systems.

Advised a Mexican developer in connection with regulatory matters applicable to the contracting of street lighting equipment leased to municipalities in several States of Mexico. The advice included an analysis for capturing Public Lighting Fees (Derecho de Alumbrado Público) as part of the payment mechanics and collateral package for the financing of individual projects, the revision of the project documents and overview of governmental contracting process.

---

## SPEAKING ENGAGEMENTS

---
